EnglishSpace is an innovative new way of learning English on the Internet. By promoting radically new collaborative learning strategies, EnglishSpace develops a global community of learners and creates dynamic opportunities for the acquisition of communicative language skills.

Content

EnglishSpace contains over sixty hours of quality lesson materials for student and teachers of English as a Second, Additional or Foreign Language (ESL, EAL, EFL). Suitable for learners at a wide range of ability levels, the course materials within EnglishSpace reflect the needs of young language learners both in the UK and abroad.

Interaction

EnglishSpace is a highly interactive educational resource which motivates students to discover and learn for themselves. Within EnglishSpace, sound, graphics and animations combine to guide learners through an interactive environment unique to the Internet.

Community

EnglishSpace builds a virtual community of learners and teachers studying together to enhance English language skills. Each EnglishSpace member has a personal homepage, a secure messaging system and access to conferencing facilities.

and interactive lessons for English language learners

Vivid and dynamic ... EnglishSpace strengthens reading comprehension and critical thinking skills - Randy Hayman, ESL Professor, USA

An invaluable tool in English language teaching - Shirley Williams, Department Head, UK

Collaboration

EnglishSpace uses the Internet to connect learners to other students and teachers worldwide. This simple but stunningly new development in language education enables global communication via task-focused collaboration between groups of students and teachers.

Design

Colourful, 3D graphics and dynamic illustrations are designed to have maximum impact on a teenage audience. Simple to navigate and fun to use, EnglishSpace has an elegant interface design which has won praise from teachers and students alike.

Join EnglishSpace today and explore a new dimension in learning!
